Rationale for the launching of the African Migration Research Digest

The African Migration Research Digest (AMRD), an initiative of the African Centre for the Study and Research on Migration, providing insights into recent publications and research on African migration issues. The AMRD bulletin highlights research and studies from academic and policy standpoints (books, articles in peer reviewed journals, policy briefs, working papers, research reports, infographs, digital and social media, book reviews, blogs, events, and resources) on various aspects of Africa's internal and international migration.

The African Centre for the Study and Research on Migration (ACSRM) encourages experts, researchers, research and academic institutions, think tanks, national, regional, continental, and international organizations, NGOs, migrant and diasporas organizations, medias, trade and employers' organizations, civil society organizations to send any recent research and publications about African migration to be considered in the forthcoming AMRD editions.
